# Apollo MENTORING PROGRAM

The no-cost program offers a chance for students and mentors to build relationships and network in today's fast-paced world through the convenience of e-mail.

A brainchild of the CCOM Alumni Association, the Apollo Mentoring Program was launched by the Office of Development and Alumni Relations in the winter of 2002 as a way to involve a very special group of individuals — those with outstanding experiences who could guide and facilitate learning — to help mentor Midwestern University students.

Named after Apollo, the Greek deity who gave the medical caduceus staff to the god Hermes, the program has inspired nearly 200 Midwestern University graduates to connect with those who will soon be following in their footsteps as health professionals.

Students say the information from our alumni has been invaluable. Alumni say the response from our students has been most gratifying!
