Program Requirements and Prerequisite Courses

To retain your admission into MWU COP, you must successfully complete the following DAP requirements:
- All pre-pharmacy courses must be completed at the partner school within two years (Track 2: within two years of program acceptance).
- A minimum cumulative GPA of 3.0 must be achieved at the end of the summer term after the first full year of prerequisite coursework at the partner school. At that time, you will then submit your transcripts to MWU via PharmCAS for a progress check.
- You must earn a minimum grade of "C" in all required courses.
- You may repeat one course one time for a higher grade. Both attempts will be included in the cumulative GPA calculation.

As you progress through your prerequisite coursework, you will meet periodically with your partner school advisor. We will also stay in contact with you. And then in the fall prior to your transition to MWU COP, our MWU Admissions Office will reach out to you to request an official partner school transcript via a free abbreviated PharmCAS application. We will provide you with complete instructions at that time.

PREREQUISITE COURSE REQUIREMENTS

Students must successfully complete the following courses listed below at the selected partner school:
