Below check the rotation blocks you are available to precept & circle the number of students you can accommodate. **PLEASE RETURN BY SEPTEMBER 21, 2018.**

Preceptor Name: __________________________ Degree: _______________
Title: __________________________ Email __________________________
Site Name: __________________________ City __________________________ State ____ Zip ______
Address: __________________________ Site Phone Number: ____________ Ext. ______ Fax Number __________________________

Please note the following changes as they apply to our new curriculum and our APPE rotations:
► Students begin APPE rotations in the spring of their P3 year
► There are 7 APPE blocks
► Students will attend six 6-week APPEs & have 1 vacation block

**NOTE FOR THE 2019-2020 APPE CYCLE ONLY:**
*Block 1 for the Class of 2020 will overlap with Block 8 (4/8/19 to 5/17/19) for the Class of 2019.
*We will double check both schedules to ensure that you are not doubled up with students.

Rotation format: 8 hours/day M-F for 6 weeks

If you have any questions please call us at (630) 515-7677, or email us at CCPOEE@midwestern.edu

Thank you for your support of our Experiential Education Program!
Community APPE (PPRAD 1802):
This practice experience will enable students to develop their skills and gain experience in a variety of patient-oriented services in community practice. In addition to medication dispensing, students will focus on drug therapy assessment and intervention, identification, resolution, and prevention of drug related problems; education, and communication with patients and other healthcare professionals. Students may participate in additional services such as administration of immunizations, blood pressure screenings, and medication therapy and disease state management.

Hospital APPE (PPRAD 1803):
This practice experience will enable students to develop their skills and gain experience in hospital practice or other system of integrated pharmacy services. Emphasis is placed on systems to promote safe and effective medication use to optimize patient outcomes. In addition to medication order processing, preparation, and distribution, students will focus on drug-use decision-making processes, individual patient drug therapy monitoring, formulary management, and communication with patients and other healthcare professionals.

General Medicine APPE (PPRAD 1804):
This practice experience will enable students to develop their skills and gain experience related to general medicine in an acute care setting. Emphasis is placed on participating in an interprofessional healthcare team, drug therapy assessment, patient care activities, and monitoring of outcomes in various patient populations. In addition, students will participate in drug therapy interventions, identify drug related problems, develop therapeutic care plans, and effectively communicate with patients and other healthcare professionals.

Ambulatory Care APPE (PPRAD 1805):
This practice experience will enable students to develop their skills and gain experience related to ambulatory care practice. Emphasis will be placed on participating in an interprofessional healthcare team, and sharing responsibility with patients, caregivers, and other healthcare professionals to achieve optimal drug therapy outcomes. In addition, students will participate in drug therapy assessment and intervention, identify drug related problems, develop therapeutic care plans, and effectively communicate with patients and other healthcare professionals.

Clinical Specialty APPE (PPRAD 1806):
This practice experience will enable students to develop their skills and gain experience related to practice in a specific clinical specialty. Emphasis will be placed on participating in an interprofessional healthcare team, drug therapy assessment and intervention, patient care activities, and monitoring of outcomes in various patient populations. In addition, students will participate in drug therapy interventions, identify drug related problems, develop therapeutic care plans, and effectively communicate with patients and other healthcare professionals.

Elective APPE (PPRAD 1807):
This is an experience where students will gain an adequate breadth of knowledge, skills, and experiences specific to their chosen elective area. Pharmacy students may select from a list of electives with a variety of patient-care or non-patient care experiences such as an additional clinical specialty (when available), managed care pharmacy, academia, or pharmacy administration.

The patient care elective follows the same structure and guidelines as the clinical specialty rotation listed above.
