DUAL ACCEPTANCE PROGRAM

What is it?
The Dual Acceptance Program (DAP) is an early assurance program for select high school seniors. The program provides motivated students with a clear path to achieving their goal of becoming a pharmacist. Students admitted to the DAP are required to complete their prerequisite requirements during two years at an affiliated school, and then matriculate into Midwestern University’s Chicago College of Pharmacy to begin a four-year Doctor of Pharmacy program.

At the end of six years, the successful DAP student will earn a Pharm.D. degree enabling him or her to embark upon an exciting career in this high-demand health care field.

What are the benefits?
- Provides for an excellent foundation in pre-pharmacy education
- Sets out a clear road map for what courses to take and when
- Saves money by not having to take the Pharmacy College Admissions Test (PCAT)
- Saves money by not having to participate in the PharmCAS admissions process
- Saves time and money from having to schedule interviews and travel
- Able to focus exclusively on pre-pharmacy courses without having to worry about the next step
- Guarantees entry to MWU-CCP upon successful completion of program requirements

Early Admission: Your Direct Path to Pharmacy School

How do I apply?
An eligible student must apply for DAP through the affiliated college or university that offers the program.

When do I apply?
The deadline for submitting a completed application to the DAP affiliate is February 15th during the senior high school year.

What are the eligibility requirements?
- Be a senior high school student at the time of application
- Be admitted to an affiliated school in the DAP program
- Score in the top 20% on a national college entrance examination (ACT 25 or higher; SAT 1700 or higher that includes a writing component score)
- Earn a minimum cumulative GPA (weighted) of 3.2 on a 4.0 scale
- Reflect a people/service orientation through community service or extracurricular activities
- Reflect a proper motivation for and a commitment to the pharmacy profession as demonstrated by previous work, volunteer, or other life experiences
- Possess the oral and written communication skills necessary to interact with patients and colleagues

Am I required to go through DAP to apply to MWU-CCP?
Absolutely not. The majority of MWU-CCP students are admitted via the traditional route (completing a PharmCAS and supplemental application, submitting PCAT scores, attending a personal interview, etc.). DAP is a special early assurance program that provides qualified, motivated students with a more direct way to apply for admission and achieve their career goals.
