By the [NUMBERS] IMPACTING HEALTHCARE

Since its founding in Illinois in 1900 and Arizona in 1995, Midwestern University has continued to thrive, expanding to meet the ever-changing needs of society. The eminently positioned Phoenix Midwestern University is able to make a continuous impact in the healthcare professions. Consider Midwestern’s far-reaching influence in recent numbers:

- More than 15,000 admissions applications received each year to fill just 1,120 student seats
- Over 290 full-time faculty actively teach, conduct research, and mentor their future colleagues
- Over 370 full-time professional staff are employed to support the academic mission of the University
- The University’s Glendale Campus boasts over 7,100 alumni who are working in leading hospitals, pharmacies, private practices, governmental agencies, academic institutions, and healthcare facilities throughout the nation
- Across both campuses, the university educates in excess of 6,000 students in 14 healthcare professions
- Our beautiful 156-acre campus in Glendale is located just 20 miles from downtown Phoenix

Academic [IMPACT]
EDUCATING TOMORROW’S HEALTHCARE TEAM

Healthcare education is all we do at Midwestern University. We are dedicated to providing academic programs that prepare skilled and dedicated healthcare workers to meet the growing needs of society. Our campus serves over 3,100 students. We offer undergraduate and graduate degree programs through our colleges and academic programs.

We also have a campus Downers Grove, Illinois with degree programs through our Chicago College of Osteopathic Medicine, Chicago College of Pharmacy, College of Health Sciences, and College of Dental Medicine-Illinois.

Economic [Impact]
Midwestern University’s overall economic impact. Glendale and Maricopa County
Midwestern University is proud to partner with the City of Glendale as one of the region’s significant economic engines and as a leader in educating healthcare professionals. Recently, the University commissioned a comprehensive, independent analysis by Applied Economics, a specialized economic consulting firm, to determine its current and ongoing financial impact. The study reveals that Midwestern University has had a far-reaching effect on job creation, business development, personal income, tax revenues, and construction expenditures in the local economy. In addition to the University’s direct contribution of $711.1 million in payroll, the spending impact of its students, employees, vendors, and campus visitors has provided a substantial boost to many businesses throughout the county, region, and state. Midwestern University’s economic impact will continue to have positive repercussions throughout many industry sectors.

$423.2 Million
Midwestern University had an economic impact of over $423.2 million in the Maricopa County economy in 2014.

2,000 Jobs $85.7 Million in PAYROLL
Midwestern supported an estimated 2,000 jobs and $85.7 million in payroll at other local businesses supported by the university and its clients, its employees, students, and campus visitors.

$14.4 Million
Midwestern indirectly generated an estimated $14.4 million in state and local tax revenues.

$1 Million Generates $1.3 Million
For every $1 million of output or revenue provided by Midwestern University, an additional $1.3 million in economic activity is generated in Maricopa County.

$111.8 Million
The 2,446 students at Midwestern supported 3,000 jobs and created $36.9 million in personal income at local businesses in 2014. Total economic impact of $111.8 million.

Local [Impact]
Over $360 Million
Midwestern has invested over $360 million in Glendale since 1995 in the construction of 34 buildings on 156 acres on the Glendale Campus. Construction of the current and planned Midwestern buildings in Glendale and Glendale is expected to generate over $360 million in Maricopa County, supporting about 1,200 jobs and $70.1 million in personal income.

Affordable Local Healthcare
In addition to the 36,000-square-foot Midwestern Clinics, the 100,000-square-foot Dental Institute, and the 33,000-square-foot Eye Institute, which offer affordable outpatient healthcare and comprehensive treatment options, a new 111,000-square-foot Companion Animal Clinic opened in 2014, which provides comprehensive veterinary care. Midwestern University Clinic serves over 25,000 patients annually.

[Powerful [Impact] on Our Community
Despite their rigorous academic schedules, Midwestern students find time to donate thousands of hours to a wide range of service projects at agencies such as American Diabetes Association, Arizona Red Cross, Arizona Literacy and Learning Center, Barrier Thunderbird Medical Center, Brain Injury Association of Arizona, Desert Mission Food Bank, Foundation of Life Children, Greater Phoenix for Preventive Tennis (GPF), Habilitation for the Blind, West Valley, Heart Health Deer Valley Medical Center, Maricopa Integrated Health Systems, Ronald McDonald House, St. Vincent de Paul, UMOM New Day Centers.

In addition, the following longstanding service projects reflect just some of the ways Midwestern students, faculty, and staff give back to the community every year:

Guatemala Mission: 50-100 volunteers; 6,000-6,000 served
American Diabetes Expo/Forum: 400 volunteers; 6,000-6,000 served
Team of Physicians for Students (TOPS) Physicals: 400 volunteers; 2,500-3,000 served
Cubs for Kids (donating hats for children with medical hair loss); 350 volunteers; 20,000-25,000 sold
Super Sack Luncheon (free dental screenings, cleanings, and meals for local elderly); 100 volunteers; 200-300 children served

Community [Impact]
VITAL IMPRESSIONS
The service impact of a major university can be difficult to quantify because the real significance on the community is so great. At Midwestern University, improving the lives and health of others through service has always been a vital piece of the campus philosophy. Since its founding, Midwestern has made it a priority to help those in the community. “At Midwestern, service is not an elective course, but rather an integral part of the educational experience shared by students, faculty, and staff,” says Kathleen H. Goepfinger, Ph.D., President and CEO of Midwestern University. “Service to others is not considered secondary to our mission of educating outstanding healthcare professionals, but rather it is a key component of a student’s academic preparation.”

Midwestern sponsors community service projects throughout the year, including health fairs, a health lecture series, health awareness seminars in schools, medical care for the homeless, and physicals for high school athletes.

Making a [Difference] for the Community
Midwestern University’s strong economic and research engines that partner with the community, region, and state while fostering excellence and long-lasting change every day of the year. As one of the most respected and dynamic healthcare institutions in the country, Midwestern University is dedicated to making a difference in the future of health care and in the community in which the University resides. As a leader in the unprecedented partnership between the relationships between corporate, legislative, and business partners is an integral piece of Midwestern University’s long-standing tradition. Every day, Midwestern attracts an important and meaningful component of the community.

Impact on [Research]
NATIONAL FUNDING SUPPORTS FACULTY RESEARCH AND THE COMMUNITY AT LARGE
Midwestern University faculty members conduct numerous research projects to help expand our scientific knowledge about health and medicine. These studies have earned federal support from agencies such as the National Institutes of Health, National Science Foundation, National Heart, Lung, and Blood Institute, National Institutes of Health, National Institute of Nursing Research, American Optometric Foundation, and others. Midwestern University continues its role in supporting faculty research efforts that benefit both the community at large and the future generation of healthcare professionals.
