Foothills Branch Library and Midwestern University present:
Community Health Lecture Series 2012

The Science Behind the Sparkle: Dental Whitening

Presented by Thomas McDaniel, D.M.D., Associate Professor, Midwestern University Dental Institute and College of Dental Medicine-Arizona

If you’re looking to show rows of white teeth when you smile, you may be considering getting your teeth whitened. But how much of dental whitening is truth, and how much is hype? Dr. McDaniel will share his expertise by describing how whitening agents work, which ones are effective and which are not, and how to identify and alleviate adverse effects associated with the process.
