IMPACTING HEALTHCARE

Since its founding in Illinois in 1900 and Arizona in 1995, Midwestern University has continued to strive, expanding to meet the ever-changing needs of society. The diverse position has allowed Midwestern University to make a continuous impact in the healthcare professions. Consider Midwestern’s far-reaching influence in recent numbers:

- More than 12,000 admissions applications are received each year to fill just 957 student seats
- Over 240 full-time faculty actively teach, conduct research, and mentor their future colleagues
- Over 300 full-time professional staff are employed to support the academic mission of the University
- The University’s Glendale Campus (founded over 4,700 acres) is home to over 2,800 students working in leading hospitals, pharmacies, private practices, governmental agencies, academic institutions, and healthcare facilities throughout the nation

Degree [PROGRAMS]

Arizona College of Osteopathic Medicine
  Doctor of Osteopathic Medicine (D.O.)

College of Pharmacy – Glendale
  Doctor of Pharmacy (Pharm.D.)

College of Health Sciences
  Master of Medical Science (M.M.S.) in Physician Assistant Studies
  Master of Occupational Therapy (M.O.T.)
  Master of Biomedical Science (M.B.S.)
  Master of Science (M.S.) in Cardiovascular Science [Perfusion]
  Doctor of Podiatric Medicine (D.P.M.)
  Master of Science (M.S.) in Nurse Anesthetics
  Doctor of Physical Therapy (D.P.T.)
  Master of Arts (M.A.) in Biomedical Science

College of Dental Medicine – Arizona
  Doctor of Dental Medicine (D.M.D.)

Arizona College of Optometry
  Doctor of Optometric Medicine (O.D.)

Midwestern University graduates are found in leading hospitals, private practices, laboratories, pharmacies, and healthcare facilities across the United States.

Midwestern University’s overall economic impact. Glendale and Maricopa County

Midwestern University is proud to partner with the City of Glendale as one of the region’s significant economic engines and as a leader in educating healthcare professionals. Recently, the University commissioned a comprehensive, independent analysis by Applied Economics, a specialized economics consulting firm, to determine its current and ongoing financial impact. The study revealed that Midwestern University has had a far-reaching effect on job creation, business development, personal income, tax revenues, and construction expenditures in the local economy. In addition to the University’s direct contribution of $60.0 million full-time employees and $43.5 million in payroll, the spending impact of its students, employees, vendors, and campus visitors has provided a substantial boost to many businesses throughout the region, county, and state. Midwestern University’s economic impact will continue to have positive repercussions throughout many industry sectors.

$303.8 Million
Midwestern University had an economic impact of over $303.8 million on the Maricopa County economy in fiscal year 2010/11.

1,400 Jobs
Midwestern University supported an estimated 1,400 jobs and created $265 million in payroll at other local businesses supported by the university and its clients, their employees, students, and campus visitors.

$8.4 Million
Midwestern University indirectly generated an estimated $8.4 million in state and local tax revenues.

$1 Million Generates $1.4 Million
For every $1 million of output or value of services provided by Midwestern University, an additional $1.4 million in economic activity is generated in Maricopa County.

$62.2 Million
The 2,479 students at Midwestern University supported 700 jobs and created $25.4 million in personal income at local businesses in 2010/11. Total economic impact was $62.2 million.

Local Impact
Over $265 Million
Midwestern University has invested over $265 million in Glendale since 1995 in the construction of 35 buildings on 144 acres for its Glendale Campus.

Affordable Local Healthcare
Midwestern University’s 2010/2011 expansion included the state-of-the-art Affordable Local Healthcare. Which offers low-cost outpatient healthcare and comprehensive medical treatment options to the community.

Statistical information: Economic and Revenue Impacts of Midwestern University on Maricopa County; Applied Economics; October 2011

Total Economic Impact of Midwestern University

Midwestern University drives an economic, academic, and research engine that partners with the community every day and state while fostering excellence and long-lasting relationships every step of the way.

As one of the most impactful and dynamic healthcare universities in the country, Midwestern University is dedicated to making a difference in the future of healthcare and in the community in which it resides. We are always enriching community partnerships and enhancing the relationships between corporate, legislative, and business partners in an integral piece of Midwestern’s long tradition. Every day, Midwestern strives to be an integral and meaningful component of the community.

Economic Impact

The service impact of a major university can be difficult to quantify because the real significance on the community is so great. At Midwestern University, improving the lives and health of others through service has always been a vital piece of the campus philosophy. Since its founding, Midwestern has made it a priority to help those in the community. “At Midwestern, service is not an elective course, but rather an integral part of the educational experience shared by students, faculty, and staff,” says Kathleen H. Grignon, Ph.D., President and CEO of Midwestern University. “Service to others is not considered secondary to our mission of educating outstanding healthcare professionals, but rather it is a key component of a student’s academic preparation.”

Midwestern sponsors countless community service projects throughout the year, including health fairs, a health lecture series, health assessments seminars in schools, medical care for the homeless, and physicals for high school athletes.

Community Impact

Despite their rigorous academic schedules, Midwestern students find time to donate thousands of hours to a wide range of service projects. During this last academic year, 112 work-study students volunteered 10,230 hours at agencies such as: American Diabetes Association, American Red Cross, Arizona Literacy and Learning Center, Banner Thunderbird Medical Center, Brain Injury Association of Arizona, Desert Mission Food Bank, Foundation for Blind Children, Growth Improvement for Female Teens (GIFT), Habitat for Humanity of the West Valley, John C. Lincoln Hospital – Dust Valley Free Clinic, and Pediatric Health Systems; Ronald McDonald House, St. Vincent de Paul, UMOM.

In addition, the following longstanding service projects reflect just some of the ways Midwestern students, faculty, and staff give back to the community every year.

Guatemala Mission: 50-100 volunteers; 4,000-6,000 served
American Diabetes Expo: Forums; 400 volunteers; 4,000-6,000 served
Team of Physicians for Students (TOPS): Physicals; 50-100 volunteers; 2,000-3,000 served
Cares for Kids (dentistry care for children with medical life issues); 150 volunteers; 3,000 treated; 7,500 miles of dental care donated Give Kids a Smile (free dental screenings and cleanings for local kids); 100-150 volunteers; 2,000-3,000 served

A Powerful Impact on Our Community

Impact on [Research] National Funding Supports Faculty Research and the Community at Large

Midwestern University faculty members conduct numerous research projects to help expand our scientific knowledge about health and medicine. These studies have earned financial support from agencies such as the Diabetes Research and Action Education Foundation, Lady具体"
