<sup>1</sup>Students matriculating to the M.P.H. Program during Summer Quarter 2021. Year of graduation coincides with the anticipated year of graduation from primary professional degree program.

<sup>2</sup>Electives are 1 - 2 credits each. Students must take at least one elective course in each of the One Health Domains (human, animal/pathogen, environment) and additional courses to meet credit requirements for the M.P.H. degree. Electives listed in more than one One Health domain can be used to satisfy the elective requirement in *either* domain, but *not* both.
