HEALTH SCIENCES OATH

As I embark upon my career as a healthcare professional, I pledge to abide by the following precepts:

I will dedicate myself to the highest standards of patient care and biomedical research;

I will strive to advance scientific knowledge and expand humankind's understanding of illness, disease, and health;

I will accept responsibility only for those matters for which I am competent, maintain the trust expected of a healthcare professional, and never take advantage of the patient-provider relationship;

I will respect the patient's right to privacy;

I will embrace the diversity of my patients and my colleagues and treat all people with respect;

I will value the knowledge and wisdom of the healthcare professionals who have taught me and endeavor to contribute to the traditions of my profession;

I will recognize my weaknesses and strengths and strive to develop those qualities that will earn the respect of my patients, my colleagues, my family and myself; and

I will continue this learning throughout all the days of my life.

ACADEMIC REGALIA AND PROCESSIONAL

Gown

The gown is the cornerstone of the academic costume that has its origins in 12th and 13th century Europe, a period when universities were being formed. Today, Midwestern University follows guidelines established by the American Council on Education. All graduates wear black gowns, with the front panels of the doctoral gown trimmed in black velvet. Each sleeve of the doctoral gown is adorned with three bars of black velvet with bell-shaped wrist ends. The master's gown is unadorned, with the wrist ends of the sleeve open oblongs that extend beyond the hand.

Hood

The hood, a commencement accessory placed around the neck that drapes down the back of the graduate's gown, signifies achievement in higher education. Its velvet top layer is the discipline color of the program of study. Both the lining and the chevron trim colors are those of the college or the program. The doctoral hood is four feet in length; the master's hood is three and one-half feet in length. At Midwestern University, the hood is carried over the right arm of the graduate in the processional and is placed on the graduate during the ceremony.

Tam

All Midwestern University graduates wear black velvet tams with black (master's programs) or gold (doctoral programs) tassels that hang to the right front side.

Honor Cords

The honor cord, nearly six feet in length, is worn around the graduate's neck and drapes down the front of the gown. The different cord colors designate the academic achievement or honor status in a national academic/professional society. A graduate can wear multiple cords if he or she qualifies for individual honors.

Midwestern University Coins

A custom minted coin is a military tradition to recognize achievement, create incentive, improve safety, or show appreciation for duty, dedication, or a job well done. Midwestern University proudly presents graduates who are in the military or entering the military following graduation with a coin to honor their service to our country.

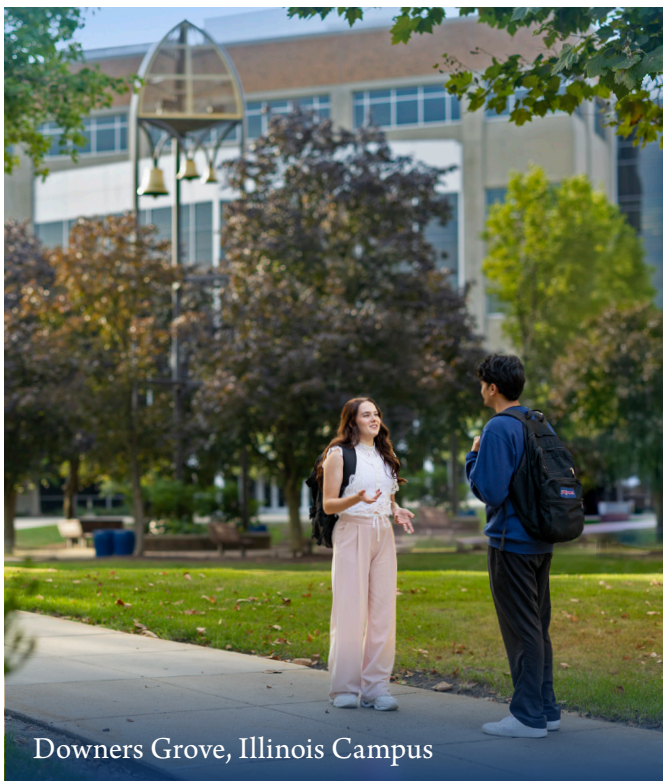

HISTORY OF MIDWESTERN UNIVERSITY

Founded in 1900 as the American College of Osteopathic Medicine and Surgery in Chicago, Illinois, Midwestern University began with a clear mission to educate healthcare professionals in a not-for-profit, student-centered environment. Early leadership and faculty built a strong reputation for academic excellence and hands-on clinical training, helping shape the future of osteopathic medicine.

The University's growth reflects both vision and responsiveness to the needs of healthcare. In 1986, the institution relocated to Downers Grove, Illinois, creating space for expanded programs across the health sciences. In 1995, Midwestern University established a second campus in Glendale, Arizona, significantly broadening its reach and impact. Over time, the University expanded to include programs in pharmacy, dental medicine, optometry, health sciences, podiatry, nursing, biomedical science, and veterinary medicine.

Today, Midwestern University is a comprehensive graduate university with two campuses, multiple colleges, and a wide range of healthcare programs. Students learn in modern facilities and gain valuable experience through interprofessional education, clinical education, and community-based clinics. The University's One Health initiative further emphasizes the connection between human, animal, and environmental health, preparing students to collaborate across disciplines to address complex global challenges.

Throughout its history, the University has remained committed to its founding principles of academic excellence, compassionate care, and student success, preparing our graduates to thrive in a rapidly changing healthcare environment.
