

We are collecting blood samples from dogs and cats to establish reference intervals for our new veterinary clinical pathology laboratory in the Animal Health Institute.

To be eligible to participate:

- Dogs and cats must be healthy (free physical exam to determine eligibility).
- Dogs and cats must weigh at least 5 pounds.
- Cats must be 1-12 years old. Dogs must be 2-10 years old.
- Dogs and cats cannot be pregnant, lactating or gestating.
- Dogs and cats must not be on any prescription medications aside from monthly parasiticides.
- Pets must be fasted for 8 hours prior to blood draw.

Owners will receive copy of bloodwork free of charge
